

# Accepted by Locals.

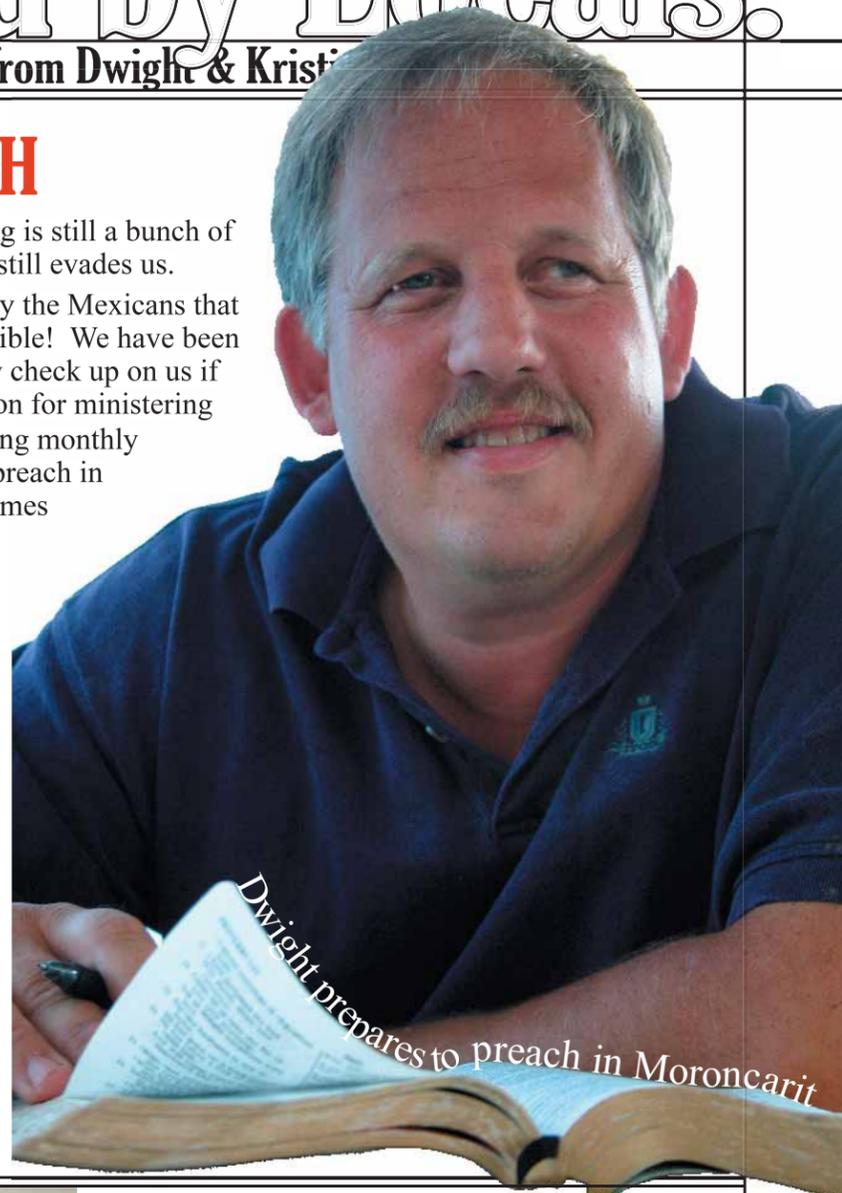

Note from Dwight & Kristi

## INVITED TO PREACH

Goin' on two months in Mexico! Basic living is still a bunch of work. Still no "sweet water" and electricity still evades us.

But, we are receiving a level of acceptance by the Mexicans that is well beyond what I thought would be possible! We have been invited to several pastors' meetings, and they check up on us if we can't make it. They are catching the vision for ministering to their children more effectively and attending monthly training meetings. We have been invited to preach in many churches, and God has blessed those times when both Kristi and I have shared.

Thank you so much for your prayers and financial support! We would not be doing this without you!

Mexicans helped us set-up authentic Mexican laundry area

## La Grande team doing kids outreach in Yavaros

### Pastor Highlight

Yavaros is a hard place. Alcoholism, drug addiction and immorality are rampant. Not to mention having to carry a concrete block in each hand to keep the mosquitoes from carrying you off. But pastor Juan Carlos Felix is successfully leading a thriving church in a really hard situation. He and his church could use your prayers.

# Teacher Training

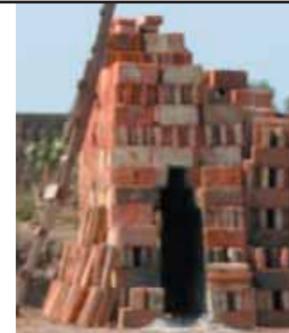

## We had another great training day!

Sunday school teachers from nine churches attended a training, encouraging and equipping session in June. Through this new monthly training, we are able to cast vision for reaching children, distribute materials, and equip people for ministry. It is so exciting to see people with new and renewed vision get excited about ministry!

### Culture Tip

Where do you get bricks for a wall? Drive around and find a big pile of smoking bricks! Hand made and fired bricks, the material of choice for our first building.

### Church Resources

We have a vision to provide communications resources to churches, enhancing their ministry. This is taking time to sell the vision, but we see progress. Pastor Alvaro wants training booklets & a pastor's alliance wants copies of a teaching on vision. Many churches spend \$40 per month on copies, this is a lot of money for them, and we can cut that way down while giving them more capability.

## Here Come The Teams!!!!

We are looking forward to hosting our first team! New Song Community Church from La Grande, OR is sending a team of 6 for a week of ministry and construction. Maybe we'll get to the beach as well... The first part of July, Net Works Ministries is bringing a team of youth from our home church, New Song Community Church in Portland, OR. We look forward to seeing friends and catching up, as well as the ministry.

Jason and Christa Meshell and family dropped by for a day on their way to Oaxaca Mexico (way South) bringing supplies and gifts from Portland. Thanks guys for the visit and help!
